

Dual Shop Reform

Background: Dual shop reform legislation would prohibit the operation of union and non union shops owned by a single contractor. Such legislation would give pre hire agreements the same status as collective bargaining agreements, making them binding and enforceable.

PHCC Nevada Position: PHCC Nevada opposes legislation which would restrict competitiveness in the construction industry. The legislation would limit the freedom of investment and ownership and opportunities available to contractors.

Government Relations Committee Approval:

Board of Directors Approval: Feb. 2, 2009
